

LUCIANO RODRIGUEZ

Frontend Developer. Building modern interfaces and seamless user experiences.

📍 Corrientes, Argentina ✉ luciano.rodriguez.dev@gmail.com 🔗 LinkedIn 📁 GitHub 🌐 Portfolio

PROFESSIONAL PROFILE

Passionate developer focused on creating tools that solve real-world problems. Currently working at TelCo SAPEM as a QA Analyst, pursuing a degree in Information Systems, and managing personal software projects.

WORK EXPERIENCE

Frontend Developer & QA Analyst

02/2025 - Present

TelCo SAPEM

Developed an internal meeting room reservation web app with authentication, an interactive calendar for booking, and an admin approval workflow. Conducted manual QA testing across internal systems, identifying and reporting bugs in pre-production environments. Leveraged my development background to inspect technical faults directly and accelerate fix cycles with the dev team. Also working with Go for backend tasks.

Co-Founder & Full Stack Developer

11/2025 - Present

NutriGo Club

Leading the business technology strategy. End-to-end design and development of a private SaaS platform for inventory, sales, and analytics, automating key operational processes.

SELECTED PROJECTS

RentAR Admin

Next.js • TypeScript • PostgreSQL • Coolify

Real estate management platform with AFIP electronic invoicing, ICL/IPC rent updates, and automated PDF reports. Self-hosted on Oracle Cloud.

Commercial Management System (SaaS)

Next.js • Supabase • TypeScript

PWA SaaS for a natural food franchise: POS, inventory, loyalty program with QR membership, and ARCA electronic billing integration.

Teslo Shop

Next.js • MongoDB • NextAuth • PayPal API

Full e-commerce with auth, persistent cart, PayPal sandbox integration, and admin panel for product and order management.
